Intermediate
- SDR World School, Nandyal** 2017-2018
10th

Projects

- NewZen Infotech Course Registration**
 - Objective:** To create a seamless and efficient platform for collecting, managing, and organizing student registration data in an organized manner.
 - Implementation:** The system allows students to provide their personal, educational, and course-related details, storing the data systematically in a structured format for easy access and management.
 - Significance:** The solution enhances data accuracy, minimizes manual intervention, and streamlines the registration process, offering a reliable and user-friendly experience.
- Personal Portfolio**
 - Showcases Expertise:** Highlights skills, accomplishments, and projects, offering a comprehensive view of professional capabilities.
 - Engaging Design and Functionality:** Features a seamless and intuitive layout that enhances visitor experience and fosters connections within the professional community.

- **Professional Digital Presence:** Leaves a lasting impression with thoughtfully crafted elements, ensuring impactful communication with visitors and collaborators.
- **Background Remover**
 - **User-Friendly Tool:** Provides a seamless platform for effortlessly removing image backgrounds with just a few clicks.
 - **Efficient Image Editing:** Automatically extracts backgrounds, leaving clean, transparent backdrops ideal for various purposes like graphic design and photography.
 - **Convenient and Fast:** Features an intuitive interface and efficient algorithm, delivering quick and easy image editing solutions for users.
- **Text to Speech**
 - **Multi-Language Text-to-Speech Conversion:** Converts text into speech in various languages and voices, promoting inclusivity and accessibility.
 - **User-Friendly and Accessible:** Features a simple interface that empowers users to access information effortlessly through audio.
 - **Seamless Integration Across Platforms:** Provides robust functionality for easy integration, enhancing communication accessibility across diverse digital platforms.
- **Resume Website**
 - **Resume Website Design:** Developed a personal resume website using HTML and CSS, featuring sections like About, Education, Technical Skills, Projects, and Contact.
 - **Showcased Projects and Skills:** Displayed project images with descriptions, academic background, and technical proficiencies for a comprehensive professional overview.
 - **Enhanced User Experience:** Implemented smooth-scrolling navigation for intuitive access to all sections, improving user interaction and accessibility.
